CAPITAL VALLEY IPSSA CHAPTER

Water Watcher

FEBRUARY 2022

Featured Speaker for February...

Worldwide, millions of pool and spa owners rely on Pentair. Their products filter, heat, clean, light, and automate pools in both residential and commercial settings.

Lorne Early will be discussing a variety of things from Pentair. His focus will be on energy and chemical efficiency and will be accompanied by Jim Ghidossi, Eric Christiansen, and Darrin Dillree. So bring your questions for their A-Team.

Pentair has been a long time supporter of our Chapter, and will be distributing education reimbursements to members who attended Pentair training in 2021.

Dinner will be provided for all attendees by Pentair.

A Message from Monte...

Water Usage!

It is estimated that the average California family uses approximately 400 gallons of water a day. Depending on the location, outdoor usage can range anywhere from 25% to 60% of the total amount of water used. The most in-home water usage is from toilet flushes and showers, and it is estimated that 18% of usage is due to leaks. A family does about 300 loads of laundry a year, and the average household leak equals the same amount of water used to wash 270 loads of laundry.

Swimming pools use a lot of water just to make up for evaporation, but that number jumps significantly when the water loss is due to a pool leak. While many factors affect evaporation rates, a basic 15' x 30' pool, with no water features, can lose about 1/4" of water in 24 hours in evaporation, depending on conditions. A 1/4" drop in water is equal to 70 gallons a day, or 2,100 gallons a month. That same pool that has a water drop of 1" a day due to a leak, loses 280 gallons a day, or 8,400 gallons a month. A 2" drop equals 560 gallons a day, or 16,800 gallons a month.

California water usage restrictions are only going to increase, so it is becoming even more important to find and fix all water leaks. Be sure to use only licensed contractors when hiring or referring a leak detection company, to protect both yourself and your clients. At American Leak Detection of Sacramento you are guaranteed to be hiring a licensed contractor, insured and bonded, a fully staffed office and a team of leak detection technicians with decades of experience.
