CAPITAL VALLEY IPSSA CHAPTER

Water Watcher

NOVEMBER 2021

**Featured Speaker For November
and Officer Elections**

Pool & Electrical Products is a wholesale distributor of swimming pool and spa products. We were established in 1992 and since then we have grown to over 31 locations throughout Arizona, California and Texas. In 2020 we merged with FWP and American Pool Supply to become the largest independent wholesale distributor in the nation.

Roger has 37 years in the pool and spa wholesale distribution industry. Roger has made it his career to offer honest and knowledgeable customer service, 8 years of experience as a branch manager, 3 years as an assistant manager and 15 years of experience in sales & tech with General Pool & Spa Supply's "Knowledge Guys".

Howard also has 37 years in the pool and spa wholesale distribution industry. Howard started at General Pool & Spa Supply in 1986, with 26 years of loyalty and Howard was one of General's top "Knowledge Guys". Today, Howard has made a name for himself as still a top salesman in our industry.

PEP will provide dinner.

A Message From Monte...

Be Careful With An Empty Pool

I wanted to remind everyone, since it has been a while since we have had so much rain in the area, to be very cautious when draining a pool. The soil is going to be very saturated around the pool structure and draining a pool runs the risk of possibly "floating" or "popping" the pool shell out of the ground, due to the surrounding hydrostatic pressure. The weight of the water inside the pool is keeping the pool in the ground when there is standing water on the outside of the pool shell. When a pool is emptied during these conditions, the water in the ground wants to force the pool structure up. It is the same concept as forcing an empty bucket down into a full pool, you have to physically hold the empty bucket in place to keep it from popping back up. If the pool has a hydrostatic relief valve at the drain, then that valve is designed to release the water pressure into the empty pool, avoiding the dreaded "floating" of the shell, but not many pools have a hydrostatic valve. Every situation is different and many factors can affect the surrounding ground water, be cautious and use common sense when draining a pool!

We remain grateful for your business and your partnership.

Pentair Education Fund

The tuition for the Pentair training in Reno qualifies for reimbursement through the Pentair education fund that has been established for CVIPSSA members. Twenty-five percent (25%) of the annual rebates given to our chapter by Pentair will be set aside to reimburse our members for Pentair training fees/tuition. The maximum amount to be set aside is \$1,000 per year. If the reimbursement requests exceed the education fund amount, then the fund amount will be split amongst the members that applied for reimbursement. Reimbursement requests must be made by January 31, 2022, for 2021 training fees. Reimbursements will be made at the April chapter meeting.
