CAPITAL VALLEY IPSSA CHAPTER

Water Watcher

SEPTEMBER 2021

Featured Speaker for September

Ray Arouesty, will be addressing the chapter via Zoom.

Ray's company, Arrow Insurance/HUB International has been IPSSA's insurance provider since IPSSA was formed in 1988. Previously he provided insurance coverage for CAL-IPSSA. Ray has been a lawyer in California since 1990 and even was a licensed Swimming Pool Repair contractor for 10 years. He has handled approximately 3000 swimming pool insurance claims and lawsuits during his career and has been a frequent speaker at swimming pool trade shows across the country.

Ray will be speaking this month about the major claims and types of risks that pool techs face. He says that pool techs are responsible for much more than they realize and that this leads to some of the biggest claims.

Ray is happy to answer any questions following his presentation.

Granite Bay Pools for Sale or Trade

I'm focusing my routes in the El Dorado Hills area. I have three clients to sell or trade that are outside that area.

Two are Chem/Basket (\$80/month):

- Off Sierra College Blvd and Old Auburn Road
- Off Auburn Folsom Road and Shelborne Dr.

The third is a Chem/Basket/Net or Brush (\$110/month)

- Off Auburn Folsom Road and Los Lagos Circle.

Please email or text me if you are serious about working out a deal with me for them.

MOVING BUSINESS FORWARD DOESN'T MEAN YOU HAVE TO GET THERE ALONE!

HASA SUPPLY & INDUSTRY UPDATE

- Demand in July has continued at an unprecedented pace, estimated at approximately 27% over 2020 levels, which were also at a record.
- There is better news as a primary supplier to the West Coast of raw materials is back up and running after a major malfunction created a ripple of supply issues—not just for HASA—but for hundreds of cities' wastewater and drinking water supplies. Product is flowing again from that supplier. *See news link to an article, which provides more details, in our post caption.*
- Disruptions have continued and are likely affecting ALL manufacturers of Sodium Hypochlorite in the areas of Southern California, Nevada, Arizona, and Texas with railcar re-routes due to major fires and extreme weather events.
- We can report that, as of this week, even though raw material availability continues to be tight, the supply chain looks to be improving and more products may be available as we do everything possible to get supplies back to a more normal level. HASA has positioned itself with supply that will continue to exceed 2020 levels, and we will be positioned to provide additional relief to the industry over the next 2-4 weeks (at least.)
- Labor and transportation continue to be a challenge as temporary and seasonal employment remain strained in key areas. This and some packaging material challenges affect total capability to get product into sufficient packaging to meet the additional needs created due to the tab shortage.
- HASA continues to manage a balanced supply to ALL customers in the recreational water market, based on 2020 and 2019 purchases in combination with 2021 projected requirements. *As much as possible, every day, fairly, to all.*
- HASA does not speak for or know the status of other suppliers in the industry; there are many choices when it comes to Sodium Hypochlorite and each supplier. HASA understands that not all these suppliers are the best solution specifically for the pool industry, and we take our obligations to the Pro and the knowledgeable pool owner seriously.

Thank you,

The HASA Supply Chain Team
