President's Message

Spring is almost here! Your truck maintenance should be done and ready for the summer rush, your pool filters should be cleaned, and vour salt and conditioner levels should be up to par. Now what? Now is the time to get some advertisements out and start talking to your customers about how much money you can save them by selling them an energy efficient pump or an upgrade on their old filter system. Between now and July is the best time for selling anything for a pool. **Some examples** would be tile cleaning, pump and filter

upgrades, automation, solar systems, and re-plasters. If you're servicing any public pool, now is the time to make sure they are VGB compliant. The health dept. will be looking hard and closing pools this year if they are not VGB. I know we have been doing a lot of work on public pools the past month getting them ready for the new season. As the weather gets better the customers and public pool owners will be more willing to spend money on their pools during spring to prepare for the summer heat.

On a different note make sure to attend the May Table Top on May 5th, you won't want to miss it. We also need some more volunteers to help out with this event, so if you can please contact me at scott@leisuretimepo ol.com

'Til next time,
"Keep It Clear"
